breathtaking bathrooms

Why shouldn't you fill an
important part of
your home
with quality?

Your bathroom should epitomise comfort, tranquillity, vivid individuality and for the most part it should reflect a luxurious pampering sanctuary. Deca knows how important this part of your home is and strives to make every product the embodiment of style, comfort, speciality and high value.

“Deca’s commitment to sustainability is a key corporate strategy and their industrial operations are qualified carbon free.”

deca and the environment

Deca's commitment to sustainability is a key corporate strategy and their industrial operations are qualified carbon free. Their manufacturing plants have also adopted numerous initiatives which promote the rational use of water, whilst their actual products lead the way in reduced water consumption through manufacturing efficiency.

All Deca products go through rigorous assessment processes and are validated under the LEED (Leadership in Energy and Environment Design) criteria, which ensure they are able to be used in green building projects where the rational use of water is mandatory.

Awards

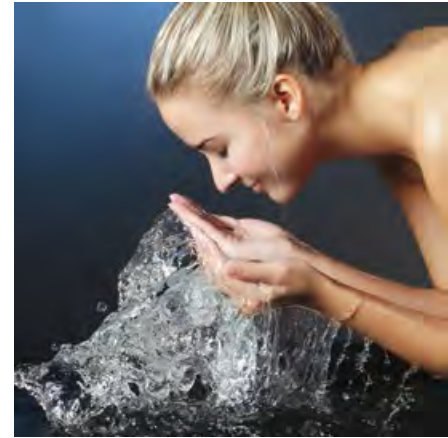

- **Premio Design Museu da Casa Brasileira** (Brazilian House Museum Design Awards)
- **iF Design Award**
- Deca was among the 3 most remembered brands in the category sanitary vitreous Chinaware and metal and also one of the most remembered in the total votes of the Top 2013 Marks.

on top basins

Create perfect harmony between function and beauty by incorporating simple designs with modern technology that embodies clean lines, balanced proportions and puristic design. Versatile and timeless, striking yet simple.
